Eco- Club Report 2020-21

Motivate the students to keep their surroundings green and clean by undertaking plantation of trees. Promote ethos of conservation of water by minimizing the use of water. Motivate students to imbibe habits and life style for minimum waste generation, source separation of waste and disposing the waste to the nearest storage point. Educate students to create awareness amongst public and sanitary workers, so as to stop the indiscriminate burning of waste which causes respiratory diseases.

Even during the pandemic situation, activities were conducted through virtual mode to create awareness of biodiversity conservations and local environmental issues among the students.

D. Botanical Nomenclature to Plants

Plants are the backbone and heart of any diversity around or under study. Most of the trees was common but some of them are different to know how they are classified. Botanical nomenclature is the essential to separate the plants according to diversity. Here are the photos which indicates the botanical nomenclature given by students.
